SKILLS

PROGRAMMING

Over 30000 lines:
Java • C • Express • Javascript
HTML-CSS • React.Js • Node.Js
• MongoDB
Over 10000 lines:
Python • Vue.js • MySQL •
Android
Familiar:
AWS • Flutter • Git • Django

COURSEWORK

UNDERGRADUATE

JAVA Programming
Competitive Programming
Problem Solving, Complexity
Analysis
Data Structure and Algorithm
Design (**DSA**)
Object Oriented Methodology
(**OOPS**)
Operating Systems (**OS**)
Database Management (**DBMS**)

EXPERIENCE

CLOSER INNOVATION LABS | SOFTWARE ENGINEER INTERN

Feb 2021 - May 2021 | Remote

- Built innovative technologies in a large distributed computing environment using RESTful APIs, Java, NoSQL, etc.
- Built distributed storage, index, and query systems that are scalable, low cost, and easy to use to deliver high quality software.
- Developed software implementation life-cycle using JavaScript Frameworks with distributed systems and relational databases.
- Collaborated with experienced cross-disciplinary Shopify Developers to design, and bring innovative products and services to Shopify clients (Small and Medium Sized Businesses).

INDIAN 0 | WEB DEVELOPER INTERN

May 2020 – Jun 2020 | Remote

- Worked with the Web Developer team to plan, design and develop the Digital Portfolios for the customers of Indian0 (A digital portfolio management).
- Built HTML, CSS and JS template solutions, with custom front ends (web, mobile) and back end services for the Portfolio Structure while maintaining highest levels of development practices, writing clean, modular and self-sustaining code, with repeatable quality and predictability.

PROJECTS

GROCIT | ONLINE GROCERY SHOPPING | ANDROID APPLICATION

Apr 2020 – May 2020 | Roorkee, UK

Built an Online Business Solution for grocery deliveries. Made a complete Technical Solution including data management, dashboard and analytics application. Made this application for local grocery store enabling to grow its business online and enabling easy deliveries for customers. Available on PlayStore.

TRAILERFLIX | WEB APP | NETFLIX CLONE

May 2021 – May 2021

Built a React based web-app, a clone of Netflix style. It shows latest trending movies and shows with their trailer, also recommends you top shows and movies categorised in different genres using TMDB API.
